Comment. Prior to mid-November, the occupation of the barracks installations, in which the 7th Gds Mecz Div and the 63d AAA Div (US) are stationed, was as light as in October. The installations appear to be occupied only by major rear details and troops departing and arriving in connection with the personnel exchange.

Similar observations were made in Frankfurt/Oder. Although no confirmation is available from Lieberose, information from the posts tends to indicate that the bulk of the division is still stationed in the Lieberose area. The rocket launchers observed in the barracks installation on Braunsdorfer Strasse, tend to indicate that the unidentified worket launcher battalion may be stationed there. It had, so far, been carried in the Ziethen Maserne in Frankfurt/Oder.
